"My internship at EGC helped me discern my path for responding to the call to ministry. The seasoned mentorship and organic interactions with diaspora Christian leaders continue to provide insights for developing the responsive Christian leadership training framework with ministry partners on the ground in Africa."

— Victor Babbage, Intercultural Ministries Intern at EGC

### BOSTON EDUCATION COLLABORATIVE (BEC)

BEC recruited college volunteers from MIT and Harvard InterVarsity campus fellowships to support the Pacesetters Boys Afterschool Program at Fletcher Maynard Academy. These college students enriched the afterschool program by planning lessons and activities that aligned with their majors coupled with the program's mission of providing social-emotional support.

### INTERCULTURAL MINISTRIES (IM)

IM was a key part of the planning, fundraising, and filming for our partner Agencia ALPHA's "Immigrants Make MA Stronger" initiative. Participants attended workshops that helped them think more deeply about their personal stories and the contributions they make to their families and community. The initiative culminated in the premiere of a short film, portrait exhibit, and participant panel.
